Possible points to make regarding the EHDC Emerging Local Plan:

- EHDC should consult again at Regulation 18 given the massively increased Housing Targets (up to 20,000), significantly changed new Land Availability Assessment sites (155 new sites, >8,000 more new houses) and their concentration along the A31 corridor
- What (and where) are the supporting infrastructure plans – transport, education, health, sewage, water etc?
- How will the natural environment (e.g. rivers) be protected?
- How do these plans deliver remotely “sustainable” development?
- To move directly to Regulation 19 (where EHDC does not have to listen to residents) and not consult further under Regulation 18 would be profoundly undemocratic (out of line with the new EHDC constitution) and contrary to plan-making obligations, given the major changes.
- Why is EHDC planning to adopt a plan which will “allocate” (irreversibly) sites for up to 20,000 new houses, when EHDC is to be abolished in 2028 and replaced by a much bigger, more strategic Unitary Authority with >5 Year Housing Land Supply and a much greater “canvas” on which to fight speculative development and plan for or support the much-needed new housing in the longer term?
- Residents on the A31 do not want their rural communities changed forever by a Local Plan which delivers ribbon development and urban sprawl.
- As EHDC council tax payers (and your electors) we need to be properly consulted, to have our say, and be listened to...
